

SKT is Bringing
FIBER
to Clearwater

**What is covered under the
“No-Worry” program?**

Managed router repair or replacement (due to normal wear and tear, act of God, and /or malfunction) is performed free of charge for customers in the program.

Repair or replacement of wiring between the inside wall jack and the router is covered in the program.

Only Calix GigaCenter routers provided by SKT are covered under the “No-Worry” program. Any router previously purchased is not eligible for this program.

SKT will assist program participants with connecting basic devices by phone and, if warranted, at the customer premises.

*Minimum of 12-month agreement.

**What is not covered under
the “No-Worry” program?**

Router malfunction resulting from negligence, abuse, or accident on the part of the program participant. In such cases standard hourly rate and trip charges will apply and become payable by the program participant.

Improper self-installation of the router including, but not limited to, improper connections to and/or from the router, incorrect configuration of the router and/or connected device, and/or any other like actions on the part of the service subscriber that results in the need for an onsite service call. In such cases, the program participant will be charged the standard hourly rate and trip charges.

Simplify Your Life With SKT Managed Wi-Fi

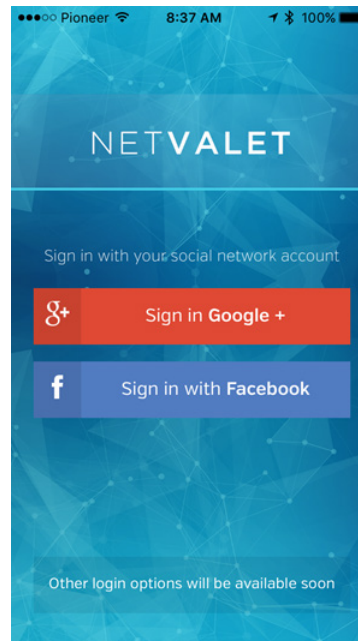

You love having a Wi-Fi network, but not the hassles of equipment upgrades and troubleshooting. That's why we now offer SKT Managed Wi-Fi. Our team handles it all for you, including installation, connecting devices currently in use, and troubleshooting. You can enjoy strong signals and fast Internet throughout your home or business.

This router lease program also allows you to take control of your Internet experience with the app, NetValet. The app is available in both iOS and Android versions. You may enable and control the many features anytime and anywhere with this mobile app.

This GigaCenter router with AC technology not only enables you to enjoy the fastest fiber optic broadband speeds all over your house or business, but to enjoy it along with multiple HD streams, super-low latency gaming, and blazing-fast home networking all at the same time.

- Capable of speeds up to 1.3 Gbps
- Detects where devices are and intensifies the signal in their direction
- Firewall and security options with website filtering/blocking
- Multiple routers may act as repeaters to broadcast the wireless signal

NetValet

NetValet is available in the Apple App Store and Google Play. It requires Google or Facebook credentials to login.

Remotely Control Features

- Associate users with devices
- View devices connected to your Wi-Fi
- Set/edit Wi-Fi name and password
- Enact parental controls with Internet access and time blocking
- Set up a guest Wi-Fi
- Monitor Internet traffic/view the top 5 apps running at a time
- Re-associate a device with the router
- Simple set-up if router needs to be replaced

“No-Worry” Router Lease and Warranty Program for only \$9.99 Per Month

Router is protected if it needs onsite service or replacement.
